

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

LISTING OF CLAIMS:

1. (currently amended) A selling price information mediation service method for mediating and supplying selling price information, which includes selling prices of a commodity in respective stores and information about the respective stores, over a network, the method comprising:

receiving, from an information requester terminal, an information request that requests selling price information about a commodity, and communicating the information request directly to a plurality of information provider terminals;

collecting pieces of selling price information that are received from part of said plurality of information provider terminals in response to the information request and match the information request, and generating collected selling price information that matches the information request;

supplying the collected selling price information to said information requester terminal, and charging said information requester terminal a prescribed information supply fee and mediation commission; and

performing processing for paying a prescribed informer fee to the part of said plurality of information provider terminals that provided the pieces of selling price information that match the information request.

2. (previously presented): A selling price information mediation service method according to claim 1, wherein a selling price information mediating service employs a membership system, and said method further comprises:

registering an information requester at said information requester terminal and information providers at said information provider terminals as members after causing them to clarify their identities; and

identifying a person who has caused a problem by distributing erroneous information upon occurrence of the problem.

3. (previously presented): A selling price information mediation service method according to claim 1, further comprising keeping a history of an information provider who caused a problem and disclosing the history to said information requester terminal.

4. (previously presented): A selling price information mediation service method according to claim 1, wherein the request information includes information of a limit selling price of the commodity, and further comprising supplying said information requester terminal with only pieces of selling price information with selling prices each of which is at most the limit selling price.

5. (previously presented): A selling price information mediation service method according to claim 1, wherein the request information includes information indicating a restrictive area where an information requester at said information requester terminal can buy the commodity, and further comprising supplying said information requester terminal with only pieces of selling price information of stores located in the restrictive area.

6. (previously presented): A selling price information mediation service method according to claim 1, further comprising supplying said information requester terminal with part of the collected selling price information that excludes information about stores before supplying the collected selling price information to said information requester terminal.

7. (previously presented): A selling price information mediation service method according to claim 1, further comprising performing processing for paying a prescribed informer fee to only part of said information provider terminals that provided pieces of selling price information with some ones of a lowest selling price and prices close to it after selling the collected selling price information to said information requester terminal.

8. (currently amended): A system for mediating and providing selling price information over a network, the system comprising:

at least one information requester terminal which requests selling price information;

a plurality of information provider terminals, each of which provide selling price information for a retailer; and

a management server which mediates selling price information;

wherein the mediating selling price information comprises:

receiving an information request that requests selling price information about a commodity from at least one information requester terminal, and communicating the information request directly to a plurality of information provider terminals;

collecting pieces of selling price information that are received from part of said plurality of information provider terminals, and match the information request, in response to the information request, and generating collected selling price information that matches the information request;

supplying the collected selling price information to said information requester terminal, and charging said information requester terminal a prescribed information supply fee and mediation commission; and

performing processing for paying a prescribed informer fee to the part of said plurality of information provider terminals that provided the pieces of selling price information that match the information request.

9. (previously presented): A system according to claim 8, wherein said management server comprises a membership system, and said membership system comprises:

registering an information requester at said information requester terminal and
information providers at said information provider terminals as members after causing them to
clarify their identities; and

identifying a person who has caused a problem by distributing erroneous information
upon occurrence of the problem.

10. (previously presented): A system according to claim 9, wherein said membership
system keeps a history of an information provider who caused a problem and discloses the
history to said information requester terminal.

11. (previously presented): A system according to claim 8, wherein the request
information includes information of a limit selling price of the commodity, and the management
server supplies said information requester terminal with only pieces of selling price information
with selling prices each of that is at most the limit selling price.

12. (previously presented): A system according to claim 8, wherein the request
information includes information indicating a restrictive area where an information requester at
said information requester terminal can buy the commodity, and said management server
supplies said information requester terminal with only pieces of selling price information of
stores located in the restrictive area.

13. (previously presented): A system according to claim 8, wherein said management server supplies said information requester terminal with part of the collected selling price information that excludes information about stores before supplying the collected selling price information to said information requester terminal.

14. (previously presented): A system according to claim 8, wherein said management server performs processing for paying a prescribed informer fee to only part of said information provider terminals that provided pieces of selling price information with some ones of a lowest selling price and prices close to it after selling the collected selling price information to said information requester terminal.

15. (currently amended): A management server for mediating selling price information over a network, the management server comprising:

a receiving unit which receives an information request which requests selling price information about a commodity from at least one information requester terminal,

a communication unit which communicates the information request directly to a plurality of information provider terminals;

a collecting unit which collects pieces of selling price information that are received from part of said plurality of information provider terminals and match the information request, and generates collected selling price information that matches the information request;

a supplying unit which supplies the collected selling price information to said information requester terminal and charges said information requester terminal a prescribed information supply fee and mediation commission; and

a processing unit which performs processing for paying a prescribed informer fee to the part of said plurality of information provider terminals that provided the pieces of selling price information that match the information request.
